

Erratum

Hospital Quarterly: Activity and performance in NSW public hospitals, July to September 2016

The Bureau of Health Information has made a correction to the report *Hospital Quarterly: Activity and performance in NSW public hospitals, July to September 2016*.

The first paragraph of page 43 of the report incorrectly stated:

During the July to September 2016 quarter, 148,924 patients arrived at NSW EDs by ambulance (down 0.5% compared with the same quarter last year).

This should have stated:

During the July to September 2016 quarter, 148,924 patients arrived at NSW EDs by ambulance (up 0.5% compared with the same quarter last year).

This correction was made and a new version of the report (first published on 7 December 2016) was published on the BHI website on 20 January 2017.
