	Semi-urgent	168	155	13	8.4%
	Non-urgent	691	656	35	5.3%

\*\* These data are not reported due to a policy change in the definition of patient stay types that was phased-in between 1 July 2016 and 30 June 2017. Fair comparisons cannot be made with results during this period as a new mental health care stay type was introduced that comprises patients who were previously included in the acute and non-acute stay types.
