Source: Admitted Patient Data Collection, Health Information Exchange. Data extracted on 23 January 2018.

* These data are not reported due to a policy change in the definition of patient stay types. A new mental health care stay type has been introduced that comprises patients who were previously included in the acute and non-acute stay types that are routinely reported by BHI. Acute, non-acute and mental health stay types will be reported separately in the next edition of Healthcare Quarterly, which covers January to March 2018.
