## The Children's Hospital at Westmead: Emergency department (ED) overview

October to December 2017

	last year	one year ago
All presentations: 1 14,569 patients	14,210	2.5%
Emergency presentations: <sup>2</sup> 14,445 patients	14,040	2.9%

# The Children's Hospital at Westmead: Time patients waited to start treatment 3

October to December 2017

October to December 2017

	Same period last year	(this period)
Triage 2 Emergency (e.g. chest pain, severe burns): 536 patients	492	
Median time to start treatment <sup>4</sup> 8 minutes	7 minutes	8 minutes
90th percentile time to start treatment 5 24 minutes	17 minutes	23 minutes
Triage 3 Urgent (e.g. moderate blood loss, dehydration): 3,666 patients	3,370	
Median time to start treatment <sup>4</sup> 21 minutes	22 minutes	20 minutes
90th percentile time to start treatment <sup>5</sup> 56 minutes	59 minutes	65 minutes
Triage 4 Semi-urgent (e.g. sprained ankle, earache): 10,024 patients	9,939	
Median time to start treatment <sup>4</sup> 44 minutes	41 minutes	26 minutes
90th percentile time to start treatment <sup>5</sup>	153 minutes	99 minutes
Triage 5 Non-urgent (e.g. small cuts or abrasions): 69 patients	101	
Median time to start treatment <sup>4</sup> 56 minutes	69 minutes	23 minutes
90th percentile time to start treatment <sup>5</sup>	*	103 minutes

## The Children's Hospital at Westmead: Time from presentation until leaving the ED

Attendances used to calculate time to leaving the ED: 6 14,569 patients

14,210 2.5%

Percentage of patients who spent four hours or less in the ED

71.1%

72.4%

- \* Suppressed due to small number of patients and to protect privacy. Relevant graphs are also suppressed.
- 1. All emergency and non-emergency attendances at the emergency department (ED).
- 2. All attendances that have a triage category and are coded as emergency presentations or unplanned return visits.
- 3. Some patients are excluded from ED time measures due to calculation requirements. For details, see the *Technical Supplement: Emergency department measures, July to September 2016.*
- 4. The median is the time by which half of patients started treatment. The other half of patients waited equal to or longer than this time.
- 5. The 90th percentile is the time by which 90% of patients started treatment. The final 10% of patients waited equal to or longer than this time.
- 6. All presentations that have a departure time.

Note: Presentation time is the earlier time recorded for clerical registration or the triage process. Treatment time is the earliest time recorded when a healthcare professional provides medical care relevant to the patient<s presenting problems.

### The Children's Hospital at Westmead: Patients arriving by ambulance

October to December 2017

		last year	one year ago
Arrivals used to calculate trans	1,072		
ED Transfer of care time			
Median time	5 minutes	6 minutes	-1 minute
90th percentile time	14 minutes	14 minutes	0 minutes

- (†) Data points are not shown in graphs for quarters when patient numbers are too small.
- (±) Caution is advised when interpreting abrupt changes over time at the hospital level. For example, performance before and after transition to a new information system is not directly comparable. For more information, see Background Paper:

  Approaches to reporting time measures of emergency department performance, December 2011.
- ( $\Omega$ ) The Sydney Children's Hospitals Network (Randwick and Westmead) advise that application of ED triaging definitions has been standardised across their facilities. This has resulted in a reporting shift of some cases from category 5 to category 4 and from category 4 to category 3 at Children's Hospital Westmead from June 2012 onwards.

Presentations used to calculate time to leaving the ED: 6 14,569 patients

Percentage of patients who spent four hours or less in the ED

	Change since one year ago
14,210	2.5%
14,210	2.5%
72.4%	

Percentage of patients who spent four hours or less in the ED, by quarter, January 2010 to December 2017 \*\*

- \* Suppressed due to small numbers and to protect privacy. Relevant graphs are also suppressed.
- $_{\mbox{\scriptsize †}}$  Data points are not shown in graphs for quarters when patient numbers were too small.
- 1. All emergency and non-emergency presentations at the emergency department (ED).
- 2. All presentations that have a triage category and are coded as emergency presentations or unplanned return visits.
- 3. Some patients are excluded from ED time measures due to calculation requirements. For details, see the *Technical Supplement: Emergency department measures, July to September 2016.*
- 4. The median is the time by which half of patients started treatment. The other half of patients took equal to or longer than this time.
- 5. The 90th percentile is the time by which 90% of patients started treatment. The final 105% of patients took equal to or longer than this time.
- 6. All presentations that have a departure time.
- 7. Transfer of care time refers to the period between arrival of patients at the ED by ambulance and the transfer of responsibility for their care from paramedics to ED staff in an ED treatment zone. For more information see Spotlight on Measurement: measuring transfer of care from the ambulance to the emergency department.
- 8. The median is the time by which half of patients left the ED. The other half of patients took equal to or longer than this time.
- 9. The 90th percentile is the time by which 90% of patients left the ED. The final 10% of patients took equal to or longer than this time.

Note: Presentation time is the earlier of times recorded for the start of clerical registration or the triage process.

Treatment time is the earliest time recorded when a healthcare professional provides medical care that is relevant to the patient<s presenting problems. For patients who were treated and discharged, departure time is the time when treatment was completed. For all other patients, departure time is the time when the patient actually left the ED.

Note: All percentages are rounded and therefore percentages may not add to 100%.
