## Lithgow Hospital: Patients ready for elective surgery as at 31st March 2018

Patients ready for elective surgery, on the waiting list for longer than 12 months

As at 31 Mar 2018

Same time last year

All specialties	< 5	0
-----------------	-----	---

- \* Suppressed due to small numbers and to protect privacy. Relevant graphs are also suppressed.
- < 5 Less than five patients. For measures by urgency category, counts are included in an adjacent category. Relevant graphs are also suppressed.
1. Excluding staged procedures.
  2. Excluding staged procedures and cystoscopy.
  3. Including non-urgent cystoscopy.
  4. Excludes the total number of days the patient was coded as 'not ready for surgery'.
  5. This is the number of days it took for half of patients who received elective surgery during the period to be admitted and receive their surgery. The other half took equal to or longer than the median to be admitted for surgery.
  6. This is the number of days it took for 90% of patients who received elective surgery during the period to be admitted and receive their surgery. The final 10% of patients took equal to or longer than the 90th percentile.
  7. The procedures included in this list are procedures which are high volume; some may be associated with long waiting periods. For a description of these procedures see *Elective Surgery Glossary of Common Procedures, December 2012*.
  8. Includes staged procedures, non-urgent cystoscopy, and patients currently not available for personal reasons.
- For more information: For details of methods, see the *Technical Supplement: Elective surgery measures, January to March 2018*.
- Note:** All percentages rounded to whole numbers and therefore percentages may not add to 100%.
