Notes: For Prince of Wales Hospital, 10.1% of triage 5 presentations were due to COVID-19 testing that occurred within the ED or a co-located testing clinic. This may have contributed to changes in ED performance. ED attendances includes every patient visit to the ED during the defined period. The vast majority of ED attendances are classified as 'emergency presentations'. The remaining ED attendances include non-emergency visits such as planned returns, pre-arranged admissions, some outpatient visits and private referrals.
