

Sydney Hospital and Sydney Eye Hospital: Emergency department (ED) overview

January to March 2018

All presentations:¹ 8,280 patients

Emergency presentations:² 8,022 patients

Same period last year	Change since one year ago
8,688	-5%
8,351	-4%

Sydney Hospital and Sydney Eye Hospital: Time patients waited to start treatment ³

January to March 2018

Triage 2 Emergency (e.g. chest pain, severe burns): 132 patients

Median time to start treatment⁴ 10 minutes
90th percentile time to start treatment⁵ 24 minutes

Triage 3 Urgent (e.g. moderate blood loss, dehydration): 1,291 patients

Median time to start treatment⁴ 22 minutes
90th percentile time to start treatment⁵ 50 minutes

Triage 4 Semi-urgent (e.g. sprained ankle, earache): 4,348 patients

Median time to start treatment⁴ 30 minutes
90th percentile time to start treatment⁵ 84 minutes

Triage 5 Non-urgent (e.g. small cuts or abrasions): 2,251 patients

Median time to start treatment⁴ 35 minutes
90th percentile time to start treatment⁵ 102 minutes

Same period last year	NSW (this period)

88 minutes	97 minutes

Sydney Hospital and Sydney Eye Hospital: Time from presentation until leaving the ED

January to March 2018

Attendances used to calculate time to leaving the ED:⁶ 8,280 patients

Percentage of patients who spent four hours or less in the ED 84%

Same period last year	Change since one year ago
8,688	-5%
87%	

* Suppressed due to small number of patients and to protect privacy. Relevant graphs are also suppressed.

1. All emergency and non-emergency attendances at the emergency department (ED).
2. All attendances that have a triage category and are coded as emergency presentations or unplanned return visits.
3. Some patients are excluded from ED time measures due to calculation requirements. For details, see the *Technical Supplement: Emergency department measures, January to March 2018*.
4. The median is the time by which half of patients started treatment. The other half of patients waited equal to or longer than this time.
5. The 90th percentile is the time by which 90% of patients started treatment. The final 10% of patients waited equal to or longer than this time.
6. All presentations that have a departure time.

Note: Presentation time is the earlier time recorded for clerical registration or the triage process. Treatment time is the earliest time recorded when a healthcare professional provides medical care relevant to the patient's presenting problems.

Source: Health Information Exchange, NSW Health (extracted 17 April 2018).

Sydney Hospital and Sydney Eye Hospital: Patients presenting to the emergency department

January to March 2018

All presentations:¹ 8,280 patients

Emergency presentations² by triage category: 8,022 patients

Emergency presentations² by quarter, January 2010 to March 2018 [‡]

Sydney Hospital and Sydney Eye Hospital: Patients arriving by ambulance

January to March 2018

Arrivals used to calculate transfer of care time: ⁷ 258 patients

ED Transfer of care time

	Same period last year	Change since one year ago
Arrivals used to calculate transfer of care time	0	-
Median time	*	*
90th percentile time	*	*

(†) Data points are not shown in graphs for quarters when patient numbers are too small.

(‡) Caution is advised when interpreting abrupt changes over time at the hospital level. For example, performance before and after transition to a new information system is not directly comparable. For more information, see Background Paper: Approaches to reporting time measures of emergency department performance, December 2011.

Sydney Hospital and Sydney Eye Hospital: Time patients waited to start treatment, triage 2

For more information, see Background Paper: Approaches to reporting time measures of emergency department performance, December 2011.

Sydney Hospital and Sydney Eye Hospital: Time spent in the ED

Percentage of patients who spent four hours or less in the ED

January to March 2018

All presentations at the emergency department: ¹ 8,280 patients

Presentations used to calculate time to leaving the ED: ⁶ 8,280 patients

Percentage of patients who spent four hours or less in the ED

Same period last year	Change since one year ago
8,688	-5%
8,688	-5%
86.8%	

Percentage of patients who spent four hours or less in the ED, by quarter, January 2010 to March 2018 ^{†‡}

- * Suppressed due to small numbers and to protect privacy. Relevant graphs are also suppressed.
- † Data points are not shown in graphs for quarters when patient numbers were too small.
- ‡ Caution is advised when interpreting abrupt changes over time at the hospital level. For example, performance before and after transition to a new information system is not directly comparable. For more information see *Background Paper: Approaches to reporting time measures of emergency department performance, December 2011*.
1. All emergency and non-emergency presentations at the emergency department (ED).
 2. All presentations that have a triage category and are coded as emergency presentations or unplanned return visits.
 3. Some patients are excluded from ED time measures due to calculation requirements. For details, see the *Technical Supplement: Emergency department measures, January to March 2018*.
 4. The median is the time by which half of patients started treatment. The other half of patients took equal to or longer than this time.
 5. The 90th percentile is the time by which 90% of patients started treatment. The final 10% of patients took equal to or longer than this time.
 6. All presentations that have a departure time.
 7. Transfer of care time refers to the period between arrival of patients at the ED by ambulance and the transfer of responsibility for their care from paramedics to ED staff in an ED treatment zone. For more information see *Spotlight on Measurement: measuring transfer of care from the ambulance to the emergency department*.
 8. The median is the time by which half of patients left the ED. The other half of patients took equal to or longer than this time.
 9. The 90th percentile is the time by which 90% of patients left the ED. The final 10% of patients took equal to or longer than this time.
- Note:** Presentation time is the earlier of times recorded for the start of clerical registration or the triage process. Treatment time is the earliest time recorded when a healthcare professional provides medical care that is relevant to the patient's presenting problems. For patients who were treated and discharged, departure time is the time when treatment was completed. For all other patients, departure time is the time when the patient actually left the ED.
- Note:** All percentages are rounded and therefore percentages may not add to 100%.
- Sources:** ED data from Health Information Exchange, NSW Health (extracted 17 April 2018).
Transfer of care data from Transfer of Care Reporting System (extracted 17 April 2018).
