Sydney/Sydney Eye Hospital: Emergency department (ED) overview July to September 2017

All presentations: 7,814 patients 7,850 patients 7,800 patients 18,124 patients 7,850 patients 7,850 patients 7,500 4.7%

Sydney/Sydney Eye Hospital: Time patients waited to start treatment³

July to September 2017

	last year	(this period)
Triage 2 Emergency (e.g. chest pain, severe burns): 136 patients	160	
Median time to start treatment ⁴ 8 minutes	8 minutes	9 minutes
90th percentile time to start treatment ⁵	19 minutes	29 minutes
Triage 3 Urgent (e.g. moderate blood loss, dehydration): 1,224 patients	1,192	
Median time to start treatment ⁴ 20 minutes	22 minutes	23 minutes
90th percentile time to start treatment ⁵ 46 minutes	52 minutes	83 minutes
Triage 4 Semi-urgent (e.g. sprained ankle, earache): 4,444 patients	4,267	
Median time to start treatment ⁴ 28 minutes	27 minutes	30 minutes
90th percentile time to start treatment ⁵ 78 minutes	76 minutes	121 minutes
Triage 5 Non-urgent (e.g. small cuts or abrasions): 2,046 patients	1,881	
Median time to start treatment ⁴ 33 minutes	30 minutes	26 minutes
90th percentile time to start treatment ⁵ 96 minutes	86 minutes	118 minutes

Sydney/Sydney Eye Hospital: Time from presentation until leaving the ED

July to September 2017

Attendances used to calculate time to leaving the ED:6 8,124 patients

Percentage of patients who spent four hours or less in the ED 85.0

Same period	Change since
last year	one year ago
7,814	4.0%
86.5%

Same period

- * Suppressed due to small number of patients and to protect privacy. Relevant graphs are also suppressed.
- 1. All emergency and non-emergency attendances at the emergency department (ED).
- 2. All attendances that have a triage category and are coded as emergency presentations or unplanned return visits.
- 3. Some patients are excluded from ED time measures due to calculation requirements. For details, see the *Technical Supplement: Emergency department measures, July to September 2016.*
- 4. The median is the time by which half of patients started treatment. The other half of patients waited equal to or longer than this time.
- 5. The 90th percentile is the time by which 90% of patients started treatment. The final 10% of patients waited equal to or longer than this time.
- 6. All presentations that have a departure time.

Note: Presentation time is the earlier time recorded for clerical registration or the triage process. Treatment time is the earliest time recorded when a healthcare professional provides medical care relevant to the patient's presenting problems.

- * Suppressed due to small numbers and to protect privacy. Relevant graphs are also suppressed.
- † Data points are not shown in graphs for quarters when patient numbers were too small.
- ${\bf 1.} \quad {\bf All \ emergency \ and \ non-emergency \ presentations \ at \ the \ emergency \ department} \ ({\bf ED}).$
- 2. All presentations that have a triage category and are coded as emergency presentations or unplanned return visits.
- 3. Some patients are excluded from ED time measures due to calculation requirements. For details, see the *Technical Supplement: Emergency department measures, July to September 2016.*
- 4. The median is the time by which half of patients started treatment. The other half of patients took equal to or longer than this time.
- 5. The 90th percentile is the time by which 90% of patients started treatment. The final 105% of patients took equal to or longer than this time.
- 6. All presentations that have a departure time.
- 7. Transfer of care time refers to the period between arrival of patients at the ED by ambulance and the transfer of responsibility for their care from paramedics to ED staff in an ED treatment zone. For more information see Spotlight on Measurement: measuring transfer of care from the ambulance to the emergency department.
- 8. The median is the time by which half of patients left the ED. The other half of patients took equal to or longer than this time.
- 9. The 90th percentile is the time by which 90% of patients left the ED. The final 10% of patients took equal to or longer than this time.

Note: Presentation time is the earlier of times recorded for the start of clerical registration or the triage process.

Treatment time is the earliest time recorded when a healthcare professional provides medical care that is relevant to the patient's presenting problems. For patients who were treated and discharged, departure time is the time when treatment was completed. For all other patients, departure time is the time when the patient actually left the ED.

Note: All percentages are rounded and therefore percentages may not add to 100%.
