Dear <First Name> <Last Name>,

We need your feedback to help improve virtual healthcare

I invite you to complete a questionnaire about your experiences of virtual care appointments. Virtual care appointments are held over the telephone or by video call, using any form of communication or information technologies, rather than in person.

You are invited to participate as NSW Health records indicate that you had at least one virtual care appointment with a hospital outpatient clinic in late 2021. Your feedback will be used to help improve healthcare experiences and outcomes for patients across NSW.

Any information you provide will be treated confidentially, and the health professionals who cared for you will not be able to see your responses.

It is also easy to take part using your smartphone, tablet or computer:

The diagram illustrates the process of taking part in the survey. It starts with 'Scan the QR code'. An alternative path is shown with 'Or' and 'go to survey.ipsos.com.au/patientsurvey'. This is followed by 'Then' and a visual representation of a smartphone, tablet, and laptop. The final step is a form with two input fields: 'Enter your username' with a placeholder '[INS_UNAME]' and 'Enter your password' with a placeholder '[INS_PASSWORD]'.

If you have any questions or need help filling in the questionnaire, please contact the toll-free Patient Survey Helpline on 1800 220 936 (Monday to Friday, 9am–8pm), or email your questions to NSWPatientSurvey@ipsos.com

For further information about patient experience across hospitals in NSW, including results from previous surveys, visit bhi.nsw.gov.au

Thank you for taking the time to help improve NSW Health services.

Yours sincerely

Dr Diane Watson

Chief Executive
