

# Errata

## Healthcare in NSW: In context

The Bureau of Health Information has made corrections to the publication *Healthcare in NSW: In context*.

On 16 October 2015, page 10, the figure for Pregnancy, childbirth and puerperium was incorrectly stated as '9% (166,343)'. The figure should have been '9% (116,343)'.

### Why are people hospitalised in NSW?

The label 'All cause hospitalisations' was also amended to read 'Overnight hospitalisations'.

These changes were made and a new version of the document (first published on 9 September 2015) was published on the BHI website on 9 November 2015.
