

Maitland Hospital: Emergency department (ED) overview

January to March 2016

All attendances:¹ 12,242 patients
Emergency attendances:² 12,091 patients

Same period last year	Change since one year ago
11,695	5%
11,593	4%

Maitland Hospital: Time from presentation to treatment³

January to March 2016

Triage 2 Emergency (e.g. chest pain, severe burns): 1,491 patients

Median time to start treatment⁴ 8 minutes
95th percentile time to start treatment⁵ 28 minutes

Triage 3 Urgent (e.g. moderate blood loss, dehydration): 2,830 patients

Median time to start treatment⁴ 23 minutes
95th percentile time to start treatment⁵ 89 minutes

Triage 4 Semi-urgent (e.g. sprained ankle, earache): 6,177 patients

Median time to start treatment⁴ 39 minutes
95th percentile time to start treatment⁵ 138 minutes

Triage 5 Non-urgent (e.g. small cuts or abrasions): 1,575 patients

Median time to start treatment⁴ 44 minutes
95th percentile time to start treatment⁵ 148 minutes

Same period last year	NSW (this period)
1,377	
8 minutes	8 minutes
35 minutes	35 minutes
2,617	
26 minutes	20 minutes
120 minutes	99 minutes

173 minutes	135 minutes

Maitland Hospital: Time from presentation until leaving the ED

January to March 2016

Attendances used to calculate time to leaving the ED:⁶ 12,242 patients

Percentage of patients who left the ED within four hours 76%

Same period last year	Change since one year ago
11,695	5%
68%	

* Suppressed due to small number of patients and to protect privacy. Relevant graphs are also suppressed.

- All emergency and non-emergency attendances at the emergency department (ED).
- All attendances that have a triage category and are coded as emergency presentations or unplanned return visits.
- Some patients are excluded from ED time measures due to calculation requirements. For details, see the *Technical Supplement: Emergency department measures, January to March 2016*.
- The median is the time by which half of patients started treatment. The other half of patients took equal to or longer than this time.
- The 95th percentile is the time by which 95% of patients started treatment. The final 5% of patients took equal to or longer than this time.
- All attendances that have a departure time.

Note: Presentation time is the earlier time recorded for clerical registration or the triage process. Treatment time is the earliest time recorded when a healthcare professional provides medical care relevant to the patient's presenting problems.

Source: Health Information Exchange, NSW Health (extracted 22 April 2016).

Maitland Hospital: Patients attending the emergency department January to March 2016

All attendances:¹ 12,242 patients

Emergency attendances² by triage category: 12,091 patients

Same period last year	Change since one year ago

Maitland Hospital: Patients arriving by ambulance January to March 2016

Arrivals used to calculate transfer of care time:⁷ 1,968 patients

ED Transfer of care time[§]

Same period last year	Change since one year ago
2,152	
10 minutes	-1 minute
39 minutes	-12 minutes

(†) Data points are not shown in graphs for quarters when patient numbers are too small.

(‡) Caution is advised when interpreting abrupt changes over time at the hospital level. For example, performance before and after transition to a new information system is not directly comparable. For more information, see Background Paper: Approaches to reporting time measures of emergency department performance, December 2011.

(§) For some smaller NSW hospitals, transfer of care times reported in Hospital Quarterly are being assessed for data quality and results should be interpreted with caution.

Maitland Hospital: Time from presentation to treatment, triage 2

January to March 2016

Triage 2 Emergency (e.g. chest pain, severe burns)

Number of triage 2 patients: 1,491

Number of triage 2 patients used to calculate waiting time:³ 1,475

Same period last year	Change since one year ago
11,695	5%
11,695	5%
68%	

Percentage of patients who left the ED within four hours of presentation, by quarter, January 2011 to March 2016^{†‡}

* Suppressed due to small numbers and to protect privacy. Relevant graphs are also suppressed.

† Data points are not shown in graphs for quarters when patient numbers were too small.

‡ Caution is advised when interpreting abrupt changes over time at the hospital level. For example, performance before and after transition to a new information system is not directly comparable. For more information see *Background Paper: Approaches to reporting time measures of emergency department performance, December 2011*.

- All emergency and non-emergency attendances at the emergency department (ED).
- All attendances that have a triage category and are coded as emergency presentations or unplanned return visits.
- Some patients are excluded from ED time measures due to calculation requirements. For details, see the *Technical Supplement: Emergency department measures, January to March 2016*.
- The median is the time by which half of patients started treatment. The other half of patients took equal to or longer than this time.
- The 95th percentile is the time by which 95% of patients started treatment. The final 5% of patients took equal to or longer than this time.
- All attendances that have a departure time.
- Transfer of care time refers to the period between arrival of patients at the ED by ambulance and the transfer of responsibility for their care from paramedics to ED staff in an ED treatment zone. For more information see *Spotlight on Measurement: measuring transfer of care from the ambulance to the emergency department*.
- The median is the time by which half of patients left the ED. The other half of patients took equal to or longer than this time.
- The 95th percentile is the time by which 95% of patients left the ED. The final 5% of patients took equal to or longer than this time.

Note: Presentation time is the earlier of times recorded for the start of clerical registration or the triage process. Treatment time is the earliest time recorded when a healthcare professional provides medical care that is relevant to the patient's presenting problems. For patients who were treated and discharged, departure time is the time when treatment was completed. For all other patients, departure time is the time when the patient actually left the ED.

Note: All percentages rounded to whole numbers and therefore percentages may not add to 100%.
