

NSW Patient Survey: Admitted Young Patients

<Barcode> Parent or Carer of <First Name> <Last Name> <Address Line 1> <SUBURB> <STATE> <POSTCODE>

Dear Parent or Carer of <FIRST NAME> <LAST NAME>,

Your child's experience in hospital is very important to us

I am writing to ask you and your child to take part in the NSW Patient Survey by telling us about your child's recent admission to [HOSPITAL NAME] during [MONTH]. Your child's experience in this hospital is important as it helps us to understand the quality of care they received and allows hospitals to see where they need to improve.

The main part of the survey should be completed by a parent or carer who was present during the child's time in hospital. The final section is for your child to complete from their point of view (although younger children might need some help).

The survey is easiest to complete online. Please visit the web address below (or scan the QR code) and log in with the following username and password. It is possible to partially complete the survey online and then return to it later to complete the remainder.

Username: [INS_UNAME]

Web address: survey.ipsos.com.au/patientsurvey

Password: [INS_PWORD]

If you prefer to complete the attached paper survey, please use the included reply-paid envelope to mail it back to us.

Taking part in the survey is voluntary. Your child has been randomly selected to participate and there are many safeguards in place to protect their identity. The hospital staff who cared for your child will not know if you have returned a completed survey and will not be able to see your responses to the survey. At no point will we report any information that identifies you or your child as an individual.

The Bureau of Health Information (BHI) runs the survey along with Ipsos Social Research Institute, who is sending you this survey on BHI's behalf. BHI was established by the NSW Government to independently report on the performance of the public health system in NSW, including the healthcare experiences of patients. Results for the NSW Patient Survey are reported in *Healthcare Observer*, found on our website **www.bhi.nsw.gov.au**

If you have any queries regarding the survey, please contact the toll-free Patient Survey Helpline on 1800 220 936 (Monday to Friday, 4pm–8pm).

Thank you for taking part in the survey.

Yours sincerely

Jean-Frédéric Lévesque Chief Executive Bureau of Health Information

Date

page 1

How to complete the survey

This survey is about your child's recent experience as an admitted patient in the hospital named on the previous page. If your child has been an admitted patient more than once during the month specified on the previous page, please answer about their most recent experience. The last two pages of the survey are for your child to fill out themselves.

For each question, please use a blue or black pen to mark the box in next to the answer you choose, as shown below.

Example only

How clean were the wards or rooms your child stayed in while in hospital?

Very clean

🔀 Fairly clean

Not very clean

Not at all clean

Sometimes you will find the box you have marked has an instruction to go to another question. By following the instructions carefully you will be able to move past questions that do not apply to you.

If you would prefer not to answer individual questions, leave them blank but please complete the rest of the survey.

If you make a mistake or wish to change a response, simply fill in that box and mark the correct box like this:

If someone is helping you to complete this survey, please ensure the answers given are from your point of view, and not the opinion of the person helping you.

If you prefer a language other than English, please refer to the separate language sheet for information on the Healthcare Interpreter Service.

Please do not write your name or address on the survey.

When you have finished

- Remove the covering letter by tearing along the perforated line.
- ➔ Place the completed survey in the "Reply Paid" envelope and post it. You do not have to use a stamp.
- ➔ If you have misplaced the "Reply Paid" envelope, please use a plain envelope (no stamp is necessary) and address to:

NSW Patient Survey Program Ipsos Social Research Institute Reply Paid 84599 Hawthorn VIC 3122

Some questions and answers

Why are you carrying out the survey?

The NSW Patient Survey gathers information about your child's experience of health services. By completing the survey, you are helping to improve health services in NSW.

How do I make a formal complaint about my child's experience in hospital?

Please contact the hospital directly.

Alternatively, you can get more information about your options at the following website:

www.health.nsw.gov.au/patientconcerns

What happens to my survey responses?

Your survey responses will be de-identified and then processed with responses from other people who completed the survey to form a report. These reports will then be provided to NSW Health and local hospitals to help them to improve health services.

Your responses will be treated in the strictest confidence and no identifying information will be given to NSW Health, the hospital or health service your child attended, their doctor or other health provider unless required by law. Your responses will not affect any future health services that may be provided to your child.

How is my privacy protected?

Your privacy is protected by legislation. Ipsos has been provided with your name and address by NSW Health for the purpose of sending you this survey only, and will keep your contact details confidential.

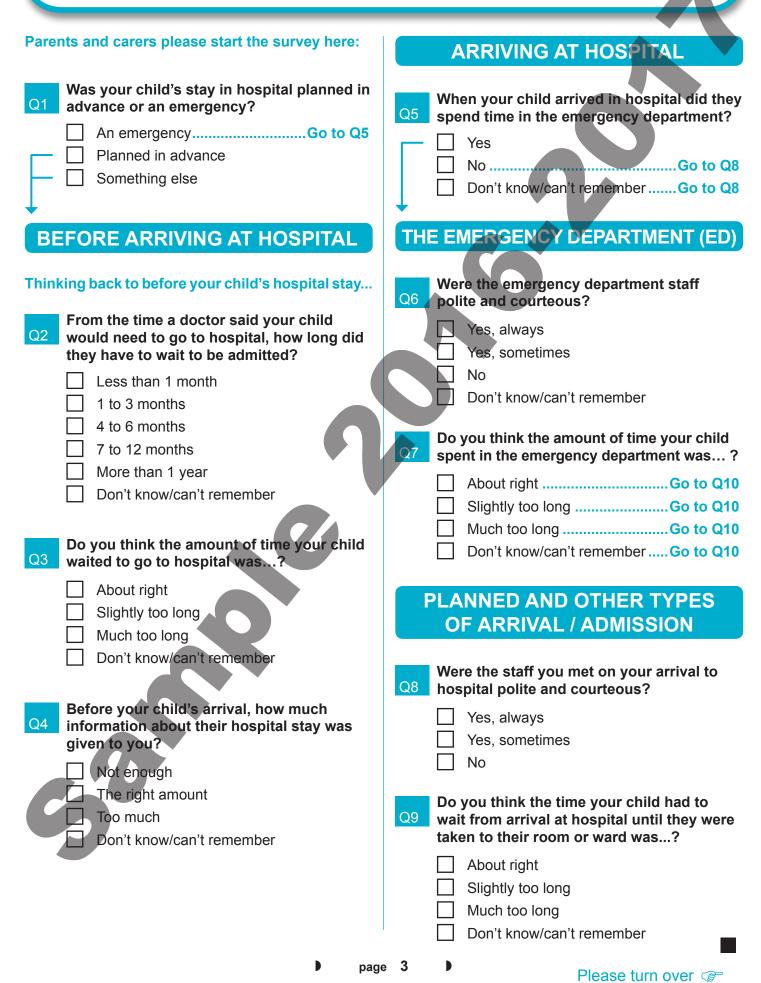

After all surveys are processed, identifying information will be destroyed and Ipsos will then no longer be able to identify the responses you provided. However, for the period that identifiable details remain, you will be able to contact Ipsos through the toll-free Patient Survey Helpline to ask to see your responses, or to request that some or all of your information be deleted.

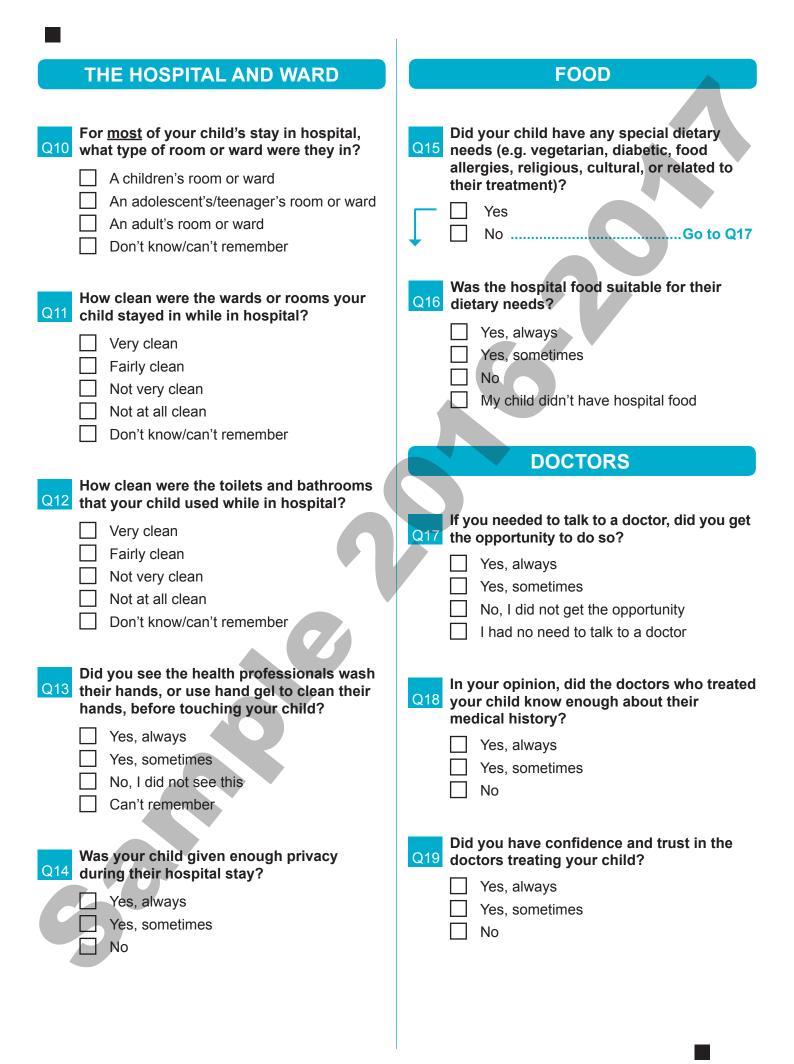

You can get more information about privacy and confidentiality by calling the toll-free Patient Survey Helpline or at the following website:

www.bhi.nsw.gov.au/nsw_patient_survey_ program/privacy

How do I get more information about the survey? Please contact the toll-free **Patient Survey Helpline** on **1800 220 936** (Monday to Friday, 4pm–8pm, excluding public holidays).

The Bureau of Health Information would like your permission to link you and your child's survey answers to other information from health records relating to your child which are maintained by various NSW and Commonwealth agencies (including your child's hospitalisations, medical visits, ambulance transportation, medication or health registry information). Linking to your child's health care information for the two years before and after their visit will allow us to better understand how different aspects of the care provided by health facilities are related to the health and use of health services of their patients.

Your child's information will be treated in the strictest confidence. We will receive the linked information after your child's name and address have been removed. We will not report any results which may identify you or your child as an individual and your responses will not be accessible to the people who looked after your child.

Do you give permission for the Bureau of Health Information to link answers from this survey to health records related to your child?

Yes
No

YOUR FINAL COMMENTS

What was the best part of the care your child received while in this hospital?

What part of your child's care provided by this hospital most needs improving?

Please now hand the survey to your child and ask them to complete pages 11 and 12.

Once your child has also completed the survey, please remove the covering letter by tearing along the perforated line. Return the survey in the reply paid envelope provided or send it in an envelope addressed to NSW Patient Survey, Ipsos Social Research Institute, Reply Paid 84599, Hawthorn, VIC 3122 (no stamp is needed)

Some of the questions asked in this survey are sourced from the NHS patient survey programme (courtesy of the NHS Care Quality Commission and the National Research Corporation (USA)), from the Australian Patient Experience Indicator Development Working Group (PEIDWG) national set of core, common patient experience questions and from the Royal College of Paediatrics and Child Health and Picker Institute Europe Urgent and Emergency Care PREM tools. Questions are used with the permission of each organisation.

YOUNG PATIE	NT'S SECTION
This section should be completed by the young Please tell us about your experience in the hospital name hospitals to see which things they are doing well and w For each question, please use a blue or black pen to the	med on the front page. Your answers will help which things they need to improve.
Please mark just one answer for each question.	
 Q80 Did the doctors and nurses introduce themselves to you? Yes, always Yes, sometimes No 	 Q85 If you were in pain, did the doctors and nurses do everything they could to help with your pain? Yes, definitely Yes, sort of No
Q81 Were the doctors kind and caring? Yes, always Yes, sometimes No	 I was not in any pain How would you rate the hospital food? Q86 Very good Good
 Were the <u>nurses</u> kind and caring? Yes, always Yes, sometimes No 	 Not good or bad Bad Very bad I did not have any hospital food
Q83 Did the doctors and nurses explain things in a way you could understand? Yes, always Yes, sometimes No No	Q87 Did the hospital room suit someone your age? Yes, definitely Yes, sort of No
 Did a doctor or nurse discuss your worries or fears with you? Yes, completely Yes, sort of No, no-one discussed my worries and fears with me I did not have any worries or fears 	 Were there things for you to do (such as books, games and toys)? There were plenty of things for me to do There were some things, but not enough There was nothing for my age group There was nothing for children to do Don't know/can't remember
